

STRAIN-RELIEF BOOTS

These highly flexible strain-relief boots are available in seven colors and can be used with N, UHF, BNC, TNC, SMA, SMB, SMC and MCX series connectors. These boots are available for use with RG 58/U, 59/U and 174/U family of coaxial cables. They protect your cable assemblies from moisture, extreme bending, weather and fatigue.

Dimensions in millimeters [inches].
